

GATEWOOD ELEMENTARY AFTERSCHOOL CLUBS SPRING 2017

Please fill out the registration form at the end of this packet and return, along with payment, to the Afterschool Clubs box in the office. Payment must be received for your child to be registered for class. Classes are filled on a first come, first served basis and you will receive a registration confirmation by email. Limited scholarships are available. Scholarship forms are available on the table by the office or by email. For more info, contact Suzanne Case or Katy Thomas at gatewood.enrichment@gmail.com

Registration deadline: Thursday April 20th. Clubs begin April 24th.

Trendy Crafts-Crafts Room to Bloom!

Join Trendy Crafts this Spring for a new line up of fresh crafts for the season. Projects this session include LEGO accessories, nature inspired decor, a special Mother's Day gift, emoji magnets, and so much more! At Trendy Crafts we take social crafting to the next level, always using the latest supplies and techniques.

K-5th grades: Mondays 2:15-3:15

Archery with Mr. B!

Gatewood after school archery will give students the opportunity to excel in the sport of archery. Learn focus and discipline while improving and developing strength and skill practice. Students will learn the eleven steps to archery success. Target archery is a highly engaging skill for young people to learn and continue to grow as a lifetime activity.

3rd-5th grade: Mondays 2:15-3:15

Lego club- Gadgets and Gizmos!

This Lego Engineering unit is all about the fun of doing something with what you've built -- kids will love playing with their creations! We sneak in lots of learning, too - understanding probability in the "3-in-a-row" game model, learning how gears work by building a paper crinkler, and learning about friction and symmetry with the spinning top lesson. We'll discuss how machines can be used to create art and build a working spin art machine with Lego Bricks, figuring out why the paint flies away from the center of the plate. Don't miss out! *We tailor lessons and model builds to meet each child's skill set.* beamexperiences.com

K-5th grade: Mondays 2:15-3:15 OR 2:15-3:45

Miss Reese Afterschool Fashion Club-TOTES AWES!

See attached flyer for description.

K-5th grades: Tuesdays 2:15-3:45

All-Star Volleyball Skills and Drills with Mr. B!

An exciting new volleyball class for Gatewood taught by Mr. B where students will have a blast learning how to pass, set and spike. This will be a great class for students who are interested in starting volleyball, and growing their skills.

3rd-5th grades: Tuesdays 2:15-3:15

Coding with Mrs. Revello!

Become a creator of technology. We'll use a variety of tools to create stories and games, solve problems and puzzles, use computational thinking and learn the basics of computer science. Languages include Blockly, Scratch Jr, Scratch, JavaScript and hands-on materials and gadgets for innovation and tinkering. New coders welcome as well as those who wish to continue at a deeper level. This is a fun, collaborative class where students share ideas, skills and projects.

1st-2nd grade: Tuesdays 2:15-3:15

3rd-5th grade: Fridays 2:15-3:45

Gardening club with Seattle Tilth!

Tilth Alliance after-school garden clubs for Kindergarten-3rd graders are fun, hands-on programs that engage kids' natural curiosity, help them connect with the natural world, and experience the seasonal cycles of the garden. During garden clubs, kids explore the connections between healthy soil, plants and people while digging in the soil, saying hello to decomposers and pollinators, planting seeds, weeding, harvesting, and tasting food fresh from the garden. Each week, we sing, we dance, we use garden tools, and we explore the garden with all of our senses. To celebrate our time together, we make a recipe using ingredients from the garden on our last day.

K-3rd grade: Tuesdays 2:15-3:15

4th-5th grade: Tuesdays 3:15-4:15

Musical Minds Piano Keyboard Club!

Kids will have the opportunity to learn to play their favorite songs and music on electric keyboards. Radio hits, movie and television themes are made so easy, that our participants will be playing them after the very first class! The club is a combination of keyboard piano lessons and a music learning workshop, which uses a clever visual method to teach the basics of music reading and piano playing. We've developed lots of learning games and activities designed to teach kids basic music reading skills and playing techniques, in ways that are fun, engaging, and stimulating. We want our students to stay motivated and continue to want to learn to play music, whether they like **Taylor Swift, Bruno Mars, Macklemore** or **Beethoven**. We have all the music they want. We have music from **Frozen, Stars Wars, Jurassic Park, Indiana Jones**, and lots more. Each participant has his/her own keyboard supplied during the class, along with headphones, and books and other materials are included.

K-5th grade: Wednesdays 2:15-3:15

Afterschool Tennis!

Hit a ball, make some friends, and learn a new skill. USTA trained instructors use age appropriate equipment and games to get kids moving, having fun, and learning tennis. No previous tennis experience is necessary, and all equipment is provided.

In addition to developing basic tennis skills, students also learn life skills and character development. TAZ is played in the school gym and sneakers are required.

K-5th grade: Wednesdays 2:15-3:15

Mad Science-STEMulating Science!

Our Junior Mad Scientists put STEM into science as we examine how potential and kinetic energy is used to power toys, learn about frequencies and cell phones, explore what life is like underwater, discover how the sun, wind, and water make electricity, and experiment with action-reaction forces as we investigate Newton's three laws of motion. Every Mad Science class delivers engaging hands-on activities, amazing demonstrations, and fun educational take-homes that your Junior Mad Scientist can build and share with family and friends.

Topics: *All About Animals, Life in the Sea, Energy Burst!, Get Connected, Mix it Up, Moving Motion, Radical Robots, Super Power Sources*

1st-5th grade: Wednesdays 2:15-3:15

Card Board Club with Mr. & Mrs. B.!

There has been a revolution in table top gaming over the last 20 years. Have fun learning and playing many of the new classics from board games to card games. Most of the games played in this club will be cooperative where students will have to incorporate teamwork, communication and work together to be successful against the game. Board games we will explore include Castle Panic, Forbidden Island, Incan Gold, Can't Stop, Dixit, Splendor and many, many more.

3rd-5th grades: Thursdays 2:15-3:15

STEM Games and Tinkering Club with Mr. and Mrs. Revello!

Join Mr. and Mrs. Revello for some after-school fun with some of our favorite Science, Technology, Engineering and Math activities. Invent, create, tinker, strategize and collaborate with tools, games and weekly challenges. From Snap Circuits to Microscopes, chess to inventing a brand new game, we'll facilitate a variety of hands-on projects and games, allowing for choice and innovation.

K-5th grades: Thursdays, 2:15-3:15

Circus and Acrobatics with Mr. B!

Students will work to develop dynamic skills and have a blast practicing. K-5 Circus & Acrobatics will be a high energy, exercise based class where students will have extended opportunities to practice and develop unique skills. Participants will be able to improve balance, power, endurance, strength and flexibility while practicing lots of interesting skills including unicycle, juggling, tumbling, Chinese yoyo, flower stix and ball walking.

K-5th grade: Fridays 2:15-3:15
